- **MUDDY WATER**
WHETHER YOU DRAW YOUR HOUSE WATER SUPPLY FROM DAM, CREEK OR RIVER CERTAIN TIMES OF THE YEAR MUDDY WATER CAN CAUSE HAVOC, AS WELL AS LEAVING UNSIGHTLY STAINS TO YOUR SINKS, TOILETS ETC. YOU CAN OVERCOME THIS PROBLEM QUITE SIMPLY BY INSTALLING A SWIMMING POOL TYPE SAND FILTER TO THE DELIVERY SIDE OF YOUR PRESSURE PUMP. THE ONLY MAINTENANCE IS A BACKWASH MAYBE ONCE A WEEK DEPENDING ON THE TURBIDITY OF THE WATER. MAKE SURE THE DELIVERY PRESSURE OF THE PUMP DOES NOT EXCEED THE WORKING PRESSURE OF THE SAND FILTER.

Been 'round for years
